Concept of the conference

**Aim and concept.** The upcoming international online conference will be a platform for sharing ideas on new trends that are currently shaping the concept of modern corporate governance. The event will focus on a variety of crucial issues of corporate governance, i.e. earnings management, corporate control, audit, executive compensation, financial reporting, disclosure and transparency issues, shareholder rights, etc. The main goal of the conference is to investigate fundamental and challenging issues of corporate governance and outline possible scenarios of its development.

The upcoming international online conference will, therefore, become a platform for academics and practitioners from all around the world to investigate the following topics:

- Ownership structure
- Mergers, acquisitions, restructuring
- Bankruptcy, liquidation procedures
- Corporate social responsibility and compliance
- Disclosure and transparency issues
- Corporate governance in family firms
- Corporate governance in financial institutions
- Corporate control
- Earnings management
- Managerial incentives
- Payout/dividend policy
- Financial reporting
- Auditing
- Board of directors’ practices
- Shareholders’ rights
- Shareholder activism
- Corporate political involvement and corporate governance
- Corruption, corporate governance and firm performance
- Corporate governance and firm performance
- Corporate governance and performance of family firms
- Corporate governance and performance of the global firms
- International and comparative corporate governance
- Executive compensation

We invite the submission of theoretical and empirical studies that advance the understanding of the areas mentioned above and any other area related to corporate governance, even if not explicitly indicated.
